# Our Family's X-plan

**YOUR MISSION:** Sit down with your parents (or another trusted relative or adult friend) to discuss the following questions.

1. What are our family's top five values? (If you're stuck, use the word bank from Values.com for suggestions!)

2. How do these values justify the need for a plan? (For example, if trust is a top value, then how can an X-plan help you and your family develop trust?)

3. What are the details of your plan?

4. When you get into a situation you know is wrong, what are three excuses you could use to get out of it?
